Hi SLO Luevanos,

Hope all is well.

Alex said he spoke to you about the Hoover St RV's and wanted me to relay to you some of the recent concerns I've heard.

A couple weeks ago, our Clean Team team supervisor told me he'd been finding disposed of bags of human waste in the sidewalk trash cans we maintain near the RV areas. He'd also found debris in the gutters as a result of the RV population. We've had to relocate some of our trash cans because of this situation.

And about a week ago, I was contacted by one of the business owners on Hoover who complained about the RV's and the mess they leave. He was concerned his business and others near him were being impacted by the RV population and they mess they leave.

USC has also reached out to the BID in the past about the RV's on Hoover.

Thanks for all your help in getting the situation resolved with new signage, etc.

Aaron Aulenta
